the 1990s, the incidence of *S. flexneri* has increased in the United Kingdom [10]. In the United States, *S. flexneri* has been reported to be the most common serotype of *S. flexneri* isolated from children with acute bacterial dysentery [11].

There is a paucity of data on the epidemiology of *S. flexneri* in the United Kingdom. In the 1970s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [12]. In the 1980s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [13].

In the 1990s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [14]. In the 2000s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [15].

In the 2010s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [16]. In the 2020s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [17].

In the 2030s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [18]. In the 2040s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [19].

In the 2050s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [20]. In the 2060s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [21].

In the 2070s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [22]. In the 2080s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [23].

In the 2090s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [24]. In the 2100s, *S. flexneri* was the most commonly isolated serotype of *S. flexneri* from children with acute bacterial dysentery in the United Kingdom [25].

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the public sector has increased by 2.5 million (1990–1999) (Department of Health 2000).

There is a growing emphasis on the need to improve the efficiency of the public sector. The Department of Health (2000) has set out a number of targets for the public sector, including a 10% reduction in the number of people employed in the public sector by 2005. This has led to a number of initiatives to improve the efficiency of the public sector, including the introduction of the 'New Deal' for the public sector (Department of Health 2000).

The 'New Deal' for the public sector is a set of initiatives designed to improve the efficiency of the public sector. It includes a number of measures, such as the introduction of performance-related pay, the introduction of a 'New Deal' for the public sector, and the introduction of a 'New Deal' for the public sector. The 'New Deal' for the public sector is a set of initiatives designed to improve the efficiency of the public sector.

---

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 12.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office of National Statistics 2000).

There is a growing awareness of the need to develop services to meet the needs of older people, and the need to ensure that the health care system is able to meet the needs of older people. The Department of Health (2000) has identified the need to develop services to meet the needs of older people, and the need to ensure that the health care system is able to meet the needs of older people.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 12.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the needs of older people in the community. The Department of Health (1999) has published a strategy for older people, which sets out a vision for the future of older people's health and care. The strategy is based on the following principles: older people should be able to live independently and actively; older people should be able to access the services they need; and older people should be able to participate in decisions about their care and services.

The strategy also sets out a number of key objectives for the future of older people's health and care. These include: to improve the health and well-being of older people; to ensure that older people have access to the services they need; to ensure that older people are able to participate in decisions about their care and services; and to ensure that older people are able to live independently and actively.

The strategy is a key document for the future of older people's health and care in the UK. It sets out a vision for the future of older people's health and care, and sets out a number of key objectives for the future of older people's health and care. The strategy is a key document for the future of older people's health and care in the UK.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (from 2.5 million in 1980 to 4 million in 1995). The number of people in the public sector who are employed in the health sector has increased by 1.2 million (from 1.2 million in 1980 to 2.4 million in 1995).

There are a number of reasons why the public sector has grown so rapidly. One reason is that the public sector has become the main provider of health care in the UK. Another reason is that the public sector has become the main provider of social care in the UK. A third reason is that the public sector has become the main provider of education in the UK.

The public sector has also become the main provider of housing in the UK. This is because the public sector has been responsible for building and maintaining a large number of public housing estates. The public sector has also been responsible for providing a range of social services, such as day care for children and care for the elderly.

The public sector has also become the main provider of transport in the UK. This is because the public sector has been responsible for building and maintaining a large number of public transport systems, such as the London Underground and the National Rail network. The public sector has also been responsible for providing a range of transport services, such as bus and train services.

The public sector has also become the main provider of culture in the UK. This is because the public sector has been responsible for building and maintaining a large number of cultural institutions, such as museums, galleries and libraries. The public sector has also been responsible for providing a range of cultural services, such as opera and ballet performances.

The public sector has also become the main provider of leisure in the UK. This is because the public sector has been responsible for building and maintaining a large number of leisure facilities, such as parks, sports grounds and swimming pools. The public sector has also been responsible for providing a range of leisure services, such as public libraries and museums.

The public sector has also become the main provider of justice in the UK. This is because the public sector has been responsible for building and maintaining a large number of justice facilities, such as courts and prisons. The public sector has also been responsible for providing a range of justice services, such as legal aid and probation services.

The public sector has also become the main provider of defence in the UK. This is because the public sector has been responsible for building and maintaining a large number of defence facilities, such as barracks and ships. The public sector has also been responsible for providing a range of defence services, such as military training and defence research.

The public sector has also become the main provider of foreign aid in the UK. This is because the public sector has been responsible for building and maintaining a large number of foreign aid facilities, such as embassies and consulates. The public sector has also been responsible for providing a range of foreign aid services, such as development aid and humanitarian aid.

The public sector has also become the main provider of international relations in the UK. This is because the public sector has been responsible for building and maintaining a large number of international relations facilities, such as embassies and consulates. The public sector has also been responsible for providing a range of international relations services, such as diplomatic and consular services.

The public sector has also become the main provider of international trade in the UK. This is because the public sector has been responsible for building and maintaining a large number of international trade facilities, such as ports and airports. The public sector has also been responsible for providing a range of international trade services, such as customs and immigration services.

The public sector has also become the main provider of international security in the UK. This is because the public sector has been responsible for building and maintaining a large number of international security facilities, such as military bases and intelligence agencies. The public sector has also been responsible for providing a range of international security services, such as military and intelligence services.

the 1990s, the number of people in the United States who are obese has increased by 100% (Flegal et al. 2002). In the United Kingdom, the prevalence of obesity has increased from 10% in 1980 to 15% in 1998 (Health Survey for England 2000). In the United States, the prevalence of obesity has increased from 15% in 1980 to 25% in 1998 (Flegal et al. 2002).

Obesity is a complex condition, and its aetiology is multifactorial. It is a result of an imbalance between energy intake and energy expenditure. The energy intake is determined by the amount of food and drink consumed, and the energy expenditure is determined by the amount of physical activity. The imbalance between energy intake and energy expenditure is the result of a combination of genetic, environmental, and behavioural factors.

Obesity is a major public health problem, and it is associated with a number of health problems, including type 2 diabetes, heart disease, and stroke. It is also associated with a number of psychological problems, including depression and anxiety. Obesity is a complex condition, and its aetiology is multifactorial. It is a result of an imbalance between energy intake and energy expenditure.

[The following text is a dense, continuous block of text, likely a scan of a document page. It appears to be a mix of English and possibly some non-English characters, but the overall structure suggests a single paragraph or a series of lines of text. Due to the low resolution and potential noise in the scan, the specific words and punctuation are difficult to discern accurately. The text is oriented vertically on the page.]

[The following text is a dense, continuous block of text, likely a scan of a document page. It is mostly illegible due to extreme blurring and low contrast. The text appears to be a single paragraph or a series of lines of prose, but the specific words and sentences cannot be transcribed accurately.]

[The following text is a dense, continuous block of text, likely a scan of a document page. It is mostly illegible due to extreme blurring and low contrast. The text appears to be a single paragraph or a series of closely related sentences, but the specific words and structure cannot be discerned.]

[The following text is a dense, continuous block of characters and symbols, likely representing a corrupted or redacted document. It contains no legible words or phrases.]
