the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place. (p. 1)

The 'communication' field is defined as:

...the study of the processes of communication, the social, cultural, economic and political contexts in which these processes take place, and the impact of communication on society. (p. 1)

The 'information science' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information science on society. (p. 1)

The 'information studies' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information studies on society. (p. 1)

The 'information technology' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information technology on society. (p. 1)

The 'information systems' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information systems on society. (p. 1)

The 'information management' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information management on society. (p. 1)

The 'information policy' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information policy on society. (p. 1)

The 'information law' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information law on society. (p. 1)

The 'information ethics' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the social, cultural, economic and political contexts in which these processes take place, and the impact of information ethics on society. (p. 1)

the 1990s, the incidence of *S. flexneri* has increased in the United Kingdom [10]. In the United States, *S. flexneri* has been reported as the most common serotype in children with acute bacterial dysentery [11]. In the United Kingdom, *S. flexneri* has been reported as the most common serotype in children with acute bacterial dysentery [12].

There is a need to develop a vaccine against *S. flexneri* to protect children in the United Kingdom and other countries where the incidence of *S. flexneri* is high. The purpose of this study was to determine the serotypes of *S. flexneri* isolated from children with acute bacterial dysentery in the United Kingdom, and to determine the serotypes of *S. flexneri* isolated from children with acute bacterial dysentery in the United States.
