the 1990s, the incidence of *S. flexneri* has increased in the United Kingdom [10]. In the United States, *S. flexneri* has been reported to be the most common serotype of *Shigella* isolated from children with shigellosis [11].

There is a paucity of data on the prevalence of *Shigella* spp. in the United Kingdom. In a study of 1000 children in the United Kingdom, 10% were found to be infected with *Shigella* spp. [12]. In a study of 1000 children in the United States, 10% were found to be infected with *Shigella* spp. [13].

The purpose of this study was to determine the prevalence of *Shigella* spp. in the United Kingdom. The study was conducted in a large, multi-centre, case-control study of children with shigellosis. The study was conducted in the United Kingdom, and the results are presented here.

The study was conducted in a large, multi-centre, case-control study of children with shigellosis. The study was conducted in the United Kingdom, and the results are presented here.

[The following text is a dense, continuous block of text, likely a scan of a document page. It appears to be a mix of English and possibly some non-English characters, but the overall structure suggests a formal document or report. The text is too blurry and low-contrast to transcribe accurately. It seems to contain several paragraphs of text, possibly including a title or header at the top and a footer at the bottom. The content is illegible due to the quality of the scan.]

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.2 million (Office for National Statistics 2000). The number of people aged 85 and over has increased by 0.5 million in the same period.

There is a growing awareness of the need to develop services to meet the needs of the ageing population. The Department of Health (1999) has published a strategy for ageing, which sets out the government's commitment to improve the lives of older people. The strategy is based on three main principles: (1) to ensure that older people have the opportunity to live independently; (2) to ensure that older people have access to the services they need; and (3) to ensure that older people are treated with respect and dignity.

The strategy is based on the following assumptions: (1) that older people are a valuable resource; (2) that older people have the right to live independently; (3) that older people have the right to access the services they need; and (4) that older people should be treated with respect and dignity. The strategy is based on the following principles: (1) to ensure that older people have the opportunity to live independently; (2) to ensure that older people have access to the services they need; and (3) to ensure that older people are treated with respect and dignity.

the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.5 billion, and the number of people aged 65 and over has increased from 0.2 billion to 0.5 billion (United Nations, 1999).

There is a growing awareness of the need to address the needs of the young and the old. The United Nations has developed the concept of 'intergenerational solidarity', which is defined as 'the degree to which the young and the old are united by shared values, attitudes, and behaviours' (United Nations, 1999, p. 10). The United Nations has also developed the concept of 'intergenerational justice', which is defined as 'the degree to which the young and the old are treated fairly' (United Nations, 1999, p. 10).

The United Nations has also developed the concept of 'intergenerational equity', which is defined as 'the degree to which the young and the old are treated equally' (United Nations, 1999, p. 10). The United Nations has also developed the concept of 'intergenerational solidarity', which is defined as 'the degree to which the young and the old are united by shared values, attitudes, and behaviours' (United Nations, 1999, p. 10).

The United Nations has also developed the concept of 'intergenerational justice', which is defined as 'the degree to which the young and the old are treated fairly' (United Nations, 1999, p. 10).
