[The following text is a dense, continuous block of characters and symbols, likely representing a corrupted or redacted document. It contains no legible words or phrases.]

[The following text is a dense, continuous block of characters and symbols, likely representing a corrupted or redacted document. It contains no legible words or phrases.]

[The following text is a dense, continuous block of text, likely a scan of a document page. It appears to be a mix of English and possibly some non-English characters, but the overall structure suggests a single paragraph or a series of closely related sentences. The text is too blurry and low-contrast to transcribe accurately, but it seems to contain several lines of prose.]

[Illegible text block containing approximately 10-12 lines of text, likely a paragraph or a list of items.]

[The following text is a dense, continuous block of text, likely a scan of a document page. It appears to be a mix of English and possibly some non-English characters, but the overall structure suggests a single paragraph or a series of lines of text. Due to the low resolution and potential noise in the scan, the specific words and punctuation are difficult to discern accurately. The text is oriented vertically on the page.]

[REDACTED]

the 1990s, the incidence of *S. flexneri* infections in the United Kingdom has increased, and the incidence of *S. flexneri* infection in the United States has increased in the 1990s [10]. In the United Kingdom, *S. flexneri* is the most common serotype of *S. flexneri* isolated from patients with shigellosis [11].

There is a paucity of data on the epidemiology of *S. flexneri* infection in the United Kingdom. In the United States, *S. flexneri* is the most common serotype of *S. flexneri* isolated from patients with shigellosis [12]. In the United Kingdom, *S. flexneri* is the most common serotype of *S. flexneri* isolated from patients with shigellosis [11].

The purpose of this study was to determine the prevalence of *S. flexneri* infection in the United Kingdom. The study was conducted in the United Kingdom, and the results of the study are presented in this paper. The study was conducted in the United Kingdom, and the results of the study are presented in this paper. The study was conducted in the United Kingdom, and the results of the study are presented in this paper.
